PW4NX
Mobile Printer Holder

The PW4NX Mobile Printer Holder is a robust, modular solution designed for securely mounting the PW4NX mobile printer in industrial or logistics environments. Built to enable seamless auto-feed operations, the holder improves print reliability, media handling, and label application flexibility—ideal for high-volume or hands-free workflows.

KEY BENEFITS:

Secure & Stable mounting in mobile carts, forklifts or workstations

Auto-Feed Ready: Simplifies operations by enabling consistent label feeding

Flexible Media Support: Works with various core sizes and media widths

Durable Build: Industrial-grade materials for demanding environments

Drop-In Replacement: Optional adapter plate allows for easy replacement of legacy "MP Compact 4"

Adaptability and standardization: With VESA and AMPS standard hole patterns for easy attachment with well-known stands and adapters.

OPTIONAL PARTS:

Internal Label Guide Kit
Guides for auto-feed label alignment

Roll Core Adapter (38mm)
Adapter for 38mm core rolls

Roll Core Adapter (76mm)
Adapter for 76mm core rolls

Adapter Plate for Compact 4
Adding the optional adapter plate, you can replace the Compact 4 printer in mobile application.

BATTERY ELIMINATOR

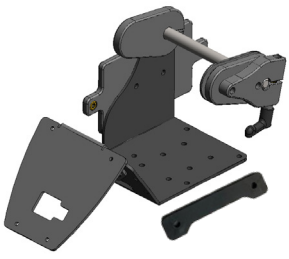

BASIC SPECIFICATIONS:

Input Voltage Range: 12Vdc to 50Vdc
Output Voltage: 16Vdc
Output Current: 2.5A

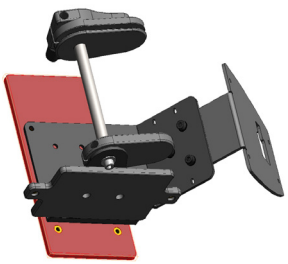

Including industrial grade ferrites to suppress high-frequency electrical noise (EMI/RFI) and to improve power clarity.

KEY FEATURES:

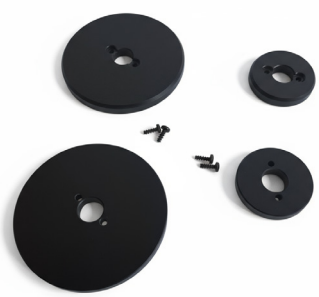

Application Agent for Auto-Feed: Ensures smooth media entry and reduces misfeeds.
Internal Label Guide Kits: Aligns media precisely during feeding to maintain print accuracy.
Optional Roll Core Adapters: 38 mm(1.5") / 76mm (3")
Supported Media Widths: 25mm (1") to 115mm (4")
Supported Media Outer Diameter (OD): 160mm (on 1" or 2"core - standard) OR 200 mm with *optional 2" or 4" core adapter.
Optional Adapter Plate: Converts "MP Compact 4" mount points to suit PW4NX
